Our mission at Gentle Care Nursing Service Inc. is to enhance the quality of life for the people we serve.

Gentle Care Nursing Services Inc.,

provides home care and companionship to individuals. Our main focus is servicing seniors, chronically ill, disabled, bedridden, and wheelchair bound patients.

We realize that many patients would rather recover in their homes than in a hospital or if they are in a facility they might need extra assistance.

Our Purpose

Our main purpose is to cater to the needs of our clients specifically in their homes and other facilities. So, we have caregivers who care for patients in their homes. This is a place where many patients feel safe and happy. We have seen from past experiences that recovering at home instead of the hospital can help the recovery period or even prolong the

lives of chronically ill patients.

These clients worry less and have a chance to spend important moments with people they love in a familiar surrounding.

We also realize that there are many elderly patients who just need companionship, someone to read them a book, play a game, or just talk.

Services

We realize that many people have needs that only a special caregiver can

provide. Therefore, we have adjusted our duties to include non-traditional nursing jobs. Our clients just have to specify what needs to be done and we will arrange the services for them. These include:

- Personal Care**
- Assist with Bathing**
- Medication Reminder**
- Travel Companion**
- Light Housekeeping**
- Meal Preparation**
- Laundry**
- Shopping**
- Companionship**

Working Hours

We are available at various hours, so we can be with your loved ones morning, noon, or night. Our working hours are specifically customize to suit each client's needs.
